

2024/DEC/20 ENGLISH CONVERSATION COMPETITION

This year's final competition of the Ministry of Education's "Enhancing English Proficiency Program for Senior High and Vocational Students" attracted 17 teams of students from various departments and grades. Everyone came well-prepared. Although some students experienced some stage fright, forgetting their prepared lines, most of their performances were still praised by the three judges. Notably, the two students who took first place not only delivered excellent content but also dressed in a manner that complemented their presentation. We hope everyone will continue to strive for excellence and cultivate well-rounded English skills!
